

Mountain View Christian School

Preschool Programs

These preschool methods of Mountain View Christian School have been successfully used over the past 25 years. This stimulating and structured learning environment for 3 to 5 year old children provides young children the opportunity to learn the skills necessary for being socially, emotionally, and intellectually prepared for their future years. We are committed to a phonics based Christian curriculum, therefore, our students get plenty of exposure to letter and number activities. Students also learn about some of the most common Bible teachings which deal with their relationship with God and others.

Three Year Old - Requirements

- 3 years old before Sep. 1
- restroom trained (minimum assistance)
- able to separate from parents
